West Michigan Airport Authority

Fiscal Year 2015 (July 1, 2014 – June 30, 2015) Action Plan

PROGRESS REPORT

February 5, 2015

**Mission Statement**

To provide the public with state-of-the-art global air access to strengthen the local economy and improve the area's quality of life.

**Fiscal Year 2015 Action Plan**

1. New Airport Business Center:

- a. Complete property acquisition. (Complete in September 2014)

The process has been completed and it is expected that the closing will occur in March 2015.

- b. Prepare construction drawings for apron and infrastructure. (Complete in October 2014)

The Board has approved the design contract with Mead & Hunt and the Michigan Aeronautics Commission (MAC) is expected to approve the design grant at its March 2015 meeting. This design work is underway and should be completed in April 2015. The delay in the timing of this work is due to finalizing the land acquisition.

- c. Prepare construction drawings for the building. (Complete in October 2014)

The Board has approved the design contract with Mead & Hunt/Progressive AE and this work is well underway. A Final Design Team has been established and the Board has received a presentation on its preliminary work. The MAC has approved the grant for this design work, but the WMAA is awaiting the grant documents for approval. This design work should be completed in April 2015. The delay in the timing of this work is due to finalizing the land acquisition.

- d. Bid construction of the three construction projects. (December 2014)

It is hoped that these projects can be bid in early summer 2015, but this will depend on MDOT approval of the construction drawings and whether MDOT or the WMAA will be bidding the project.

- e. Begin construction of the three projects. (March 2015)

The intent is to begin construction before the end of summer 2015.

There has not yet been much progress on Action Plan items 2 – 7. The new Airport Business Center and Apron projects have required nearly all of the time of the Airport Authority Manager and it is expected that this time demand will continue throughout the projects. The various staff working on Authority activities met recently to discuss the best means for accomplishing these items and it is expected that significant progress or completion will occur on most of these prior to the end of the fiscal year.

2. Reorganize staff or work with another area organization to conduct Business Development activities at the airport. (July 2014)
3. Prepare a preliminary design, cost estimate and business plan for an additional public hangar building. (August 2014)
4. Evaluate options for maintenance of the Instrument Landing System and if it is decided to remain with the current maintenance provider, then update the agreement. (September 2014)
5. Evaluate the public T hangar lease rate, utility costs, maintenance needs and use of the hangars. (November 2014)
6. Interact on a more regular basis with public T hangar and land lease tenants to understand their needs and vision for the airport. (August 2014)
7. Review and update the Airport Emergency Plan. (September 2014)
8. Prepare a crack sealing and paint marking program. (October 2014)  
It has been determined that this work is not necessary during this fiscal year.

9. Communications:

- a. Participate in at least three community events.  
Participation in at least two events has occurred already and this objective should be met in May 2015.
- b. Distribute information on airport activities through videos, website updates, periodic newsletters, media releases and community presentations.  
E-newsletters have been prepared and the website has been updated. Also, a presentation on the airport has been made to the morning Rotary Club.
- c. Continue to be active in social media venues such as Facebook and Twitter.  
The Communications Coordinator remains active on Facebook and Twitter and has substantially increased the number of Facebook likes in the past six months.
- d. Provide updates to member units on activities of the Authority.  
This has not yet occurred on a formal basis, but at a recent Communications Committee meeting, it was suggested that the appointed governmental representatives on the WMAA Board could provide these updates to their individual Board/Councils.

Item. 6

February 9, 2015

**To:** West Michigan Airport Authority Board.  
**From:** Greg Robinson, Airport Authority Manager.  
**Subject:** 2015 Fuel Flowage Fee.

---

Since fiscal year 2004, a flowage fee has been applied to every gallon of fuel sold at West Michigan Regional Airport. This flowage fee and airport landing fees have been used to offset airport maintenance expenses such snowplowing, mowing, maintenance of the lighting system and utilities. Each year, the Authority Board reviews and sets a flowage fee for the ensuing 12 months and it is now time to do so for the coming months.

Attached to this report is a table of information relating to the flowage fee that was evaluated by the Authority's Operations Committee. The Committee is recommending that the fuel flowage fee be .10 cents per gallon for the next 12 months. This fee was increased to 10 cents for 2014 and had been at 9.5 cents per gallon for the previous six years. Even with this proposed fee, the Authority will be subsidizing the maintenance expenses; however, the increase recommended is competitive with flowage fees being charged at other airports in the region.

Covering expenses depends upon the number of gallons sold, the amount of landing fees, and the actual costs for snowplowing, mowing, light replacements, general maintenance and utilities. These are the unknowns at this point and there could ultimately be a surplus or a shortfall at the end of the fiscal year.

### **Recommendation**

It is recommended that the West Michigan Airport Authority Board approve a fuel flowage fee of .10 cents per gallon until February 29, 2016.
