It was moved by Sylte and supported by Whiteman to accept the low bid submitted by Comlink in the amount of \$2,000 for installation and a monthly fee of \$550 for a 3-year period for the provision of a fiber connection to the Airport Business Center.

This motion was unanimously adopted.

The report was accepted as information.

16.02.08 Airport Business Center Project Donations

Mr. Robinson advised that the Airport Authority has been receiving pledges and donations for the new Airport Business Center project. At this time, it is requested that the Board accept another \$55,000 in cash (\$50,000 Haworth and \$5,000 from Ron & Joan Griffith) and \$75,000 in furniture (from Haworth). Total Donations/Pledges will then be \$312,590 + \$150,000 in furniture = \$462,590

Mr. Robinson advised that the Authority's Operations Committee has recommended that the fuel flowage fee remain at 10 cents per gallon for calendar year 2016. Each year, the Authority Board reviews and sets a fuel flowage fee that is used to offset, in part, the cost of snowplowing, mowing, runway/taxiway lights repair and the utilities for keeping the lights and ILS operating.

Item 3.

To: West Michigan Airport Authority Board.
From: Greg Robinson, Authority Manager.
Subject: Public Hearing & Resolution on the FY17 Operating and Capital Budgets.

Annually, the Airport Authority Manager prepares and submits the fiscal year operating and capital budgets to the Authority Board for consideration. The Fiscal Year 2017 Operating and Capital budgets have been prepared and reviewed by the Operations Committee. The Committee made changes to the original presentation which are reflected in the budget submitted to the Board.

The budget presentation also includes a report on accomplishments during Fiscal Year 2016 and a proposed Action Plan for Fiscal Year (FY) 2017. Much progress has been made on the FY16 Action Plan and an aggressive Action Plan is proposed for FY17.

Revenues in the proposed FY17 Operating budget are estimated to increase by about 3.3% from the estimated FY16 year-end revenues. This is due primarily to an anticipated increase in fuel flowage fee revenues and a rental fee that will be charged for leased space in the new Airport Business Center. This rental fee will help offset the building occupancy costs for the Business Center. Operating expenses for the new Airport Business Center are based on the experience of other office buildings in the area, but actual expenses will not be known until the building is operational in the early portion of FY17. The millage rate is recommended to remain at one-tenth of a mill.

Personnel costs are anticipated to be somewhat less than the FY16 budgeted amount, but the Operations Committee will be evaluating the staffing needs of the Authority as the FY moves along, particularly due to opportunities resulting from locating staff offices in the Airport Business Center and the needs of the Authority.

It is anticipated that about \$141,000 will be available from revenues to provide the local match for FY17 Capital Projects. The proposed FY17 Capital Projects include landscaping and signage for the Airport Business Center as well as demolition of the

The West Michigan Airport Authority will provide the public with state-of-the-art global air access to strengthen the local economy and improve the area's quality of life.

existing office building and restoration of this site. The Capital budget also includes design and construction of the east connector to the new apron which had to be deleted from the original project due to budget limitations.

Recommendation

It is recommended that after the Authority Board holds a public hearing on the proposed FY17 Operating & Capital budgets:

1. That any changes be made to the budgets as the result of the public hearing;
and
2. That the Board adopt the attached Resolution approving the FY17 Operating & Capital Budgets.

Fiscal Year 2016 (July 1, 2015 – June 30, 2016) Action Plan

Status Report

January 11, 2016

Mission Statement

To provide the public with state-of-the-art global air access to strengthen the local economy and improve the area's quality of life.

Fiscal Year 2016 Action Plan

1. New Airport Business Center:

- a. Construct the Airport Business Center. (Begin August 2015)

Construction began on-time and is generally on schedule! There is much more required of this project than "construction". Board members and staff have been working on fund-raising, re-design of certain elements, adding items back-into the project that were deleted due to budget constraints, technology/communications/security needs, weekly project meetings, furniture planning and new signs.

- b. Construct the new apron. (Begin August 2015)

Construction began on-time and is generally on schedule.

- c. Move into the new Airport Business Center. (April 2016)

It is expected that move-in to the new Airport Business Center will occur by September 2016.

2. Remove the existing airport office building and, perhaps, a portion of this parking lot, and conduct site restoration for this airport entrance. (May 2016)

Due to the revised project schedule, it is anticipated that the demolition of the existing office building and site restoration will begin in the fall 2016. This will depend on the FAA removing its weather equipment from this building and relocating it to the new building. Site restoration may occur in the spring 2017.

3. Evaluate the Authority staffing structure and revise as needed. (February 2016)

The Operations Committee will be discussing this item as it reviews the proposed FY17 budget.

4. Provide a centralized location at the new Airport Business Center for all Airport Authority documents and reference materials. (May 2016)

This will be timed with the anticipated move-in date to the new Airport Business Center.

5. Prepare a preliminary design, cost estimate and business plan for an additional public hangar building. (January 2016)

This item has not yet been addressed due to the amount of time required for the Business Center and Apron projects. Both the airport consultant (Mead/Hunt), Airport Manager and Authority Manager will be able to devote more time to this once the current projects are completed.

6. Prepare a crack sealing and paint marking program. (June 2016)

It is anticipated that this project will be completed during the summer 2016.

7. Revise the airport Stormwater Management Plan upon completion of the Airport Business Center and Apron projects if necessary. (June 2016)

This item will be addressed, if necessary, after completion of the Business Center and Apron projects.

8. Work with the Holland City Planning Commission on the preparation of an updated Master Plan for the area around the airport. (June 2016)

The Authority Manager is discussing this item with staff of the City Planning Commission and an update will be provided at the January Board meeting.

9. Communications:

- a. Organize a ribbon cutting event for the new Airport Business Center.

This event will not occur until the Business Center is completed in the fall 2016. However, a very successful ground breaking ceremony was held in September 2015!

- b. Coordinate informational displays for the interior of the Airport Business Center.

This item is underway.

- c. Participate in at least three community events.

We have had difficulties with the Authority's parade float this year, but anticipate that it will be in the May 2016 Tulip Time Saturday parade. The Authority was active in supporting a successful fall 2015 Wings of Mercy event at the airport.

- d. Distribute information on airport activities through videos, website updates, periodic newsletters, media releases and community presentations.

These activities are being accomplished by the Communications Committee and Coordinator Karen Scholten.

- e. Continue to be active in social media venues such as Facebook and Twitter.

Ongoing and active.

- f. Provide updates to member units on activities of the Authority.

Information on the Airport Business Center and Apron projects has been provided to governmental representatives on the Authority Board for presentation to member units.

- g. Interact with airport tenants and users on airport activities, needs and matters of interest.

Some progress has been made on this item thanks to the efforts of Board member Matthyse. Staff is anticipating a survey to tenants and users before the end of this fiscal year. Further, tenants and users are on the email newsletter mailing list.
