1. Public Comment.
2. Consideration of September 13th, 2021, Meeting Minutes (Action Requested).
3. Review Board Roster (Action Requested)
4. Communications Update.
5. Introduction of Holland Board Appointee: Charles Murray.
6. Approval of Agreements for Professional Consultant Services: Preliminary Engineering & Short Form Environmental Assessment (Action Requested).
7. Approval of Credit Card Policy (Action Requested).
8. Proposal to Extend Project Administrator Assignment through June 30th, 2022 (Action Requested).
9. Sustainability Initiatives (No Action).
10. Committee Appointments (Action Requested).
 - A. Daniel Robertson (Marketing & Communications)
 - B. Mike Mabie (Operations)
11. Financial Reports.
12. Updates from Board.
13. Other Business
 - A. Parcel K Update
14. Adjourn.

Next Meeting will be held December 13th, 2021

The West Michigan Airport Authority will provide the public with state-of-the-art global air access to strengthen the local economy and improve the area's quality of life.

West Michigan Airport Authority

MEETING MINUTES

September 13th, 2021

*****11:30 a.m. – 1:00 p.m.*****

Hybrid Meeting – In Person & Using Zoom

PRESENT: Hoekstra, Corbin, Klynstra, Blanton, Hoogland, Sylte, Keeter, King

ABSENT: Garcia.

OTHERS PRESENT: Airport Authority Director Thelenwood, Project Administrator Davio

Board Chair Sylte called the meeting to order at 11:30 a.m.

Board Members in Attendance (Roll Call):

Dave Hoekstra, In Person

Scott Corbin, In Allegan County

Klynstra, Monona, WI

Beth Blanton, In Person

Les Hoogland, In Person

Sylte, In Person

Skip Keeter, In Person

Jeff King, Chicago, IL

21.09.1 Public Comments.

None

21.09.2 July 12th, 2021 Meeting Minutes.

Hoekstra made a motion with support by Blanton to approve the July 12th Meeting Minutes as written.

Aye votes: Hoekstra, Corbin, Klynstra, Blanton, Hoogland, Sylte, Keeter, King

Nays: None

Motion carried.

21.09.3 Communications Update

Director Thelenwood Presented to the Board the updated Airport Authority Brand Video, as well as outlined key upcoming initiatives including new marketing materials for the Airport.

Thelenwood additionally reminded the Board to schedule their headshots with Boileau Communication, to be added to the airport's website. No action was requested.

21.09.4.1.1 Review & Approval of FlightLevel Proposed fee Schedule

Under the terms of the FBO Agreement between the Airport Authority and FlightLevel Aviation, the FBO is required to seek approval for any fee adjustments exceeding 10%. FlightLevel provided the board with a comprehensive list of fee adjustments. Given the extent of the adjustments, the fact that the majority of fees as well as the form of the new operator's fee schedule were substantially different from the past, it was important to review them in their entirety. Thelenwood walked the Board through key components and differences of the fee schedule presented.

King made a motion with support by Hoogland to approve the Proposed Fee Schedule as Presented.

Aye votes: Hoekstra, Corbin, Klynstra, Blanton, Hoogland, Sylte, Keeter, King

Nays: None

Motion carried.

21.09.5 Mead & Hunt Strategic Planning Support Services Contract

Director Thelenwood presented a proposal from Mead & Hunt, totaling \$50,000, to provide key strategic support services related to goals and objectives outlined by the Board. The proposal would require a budget amendment from the board to cover the agreement costs, which would come from working capital. Any unused portions by the end of the fiscal year would either be rolled over into the next fiscal year for completion of outlined tasks or would be returned to working capital if work is completed.

Hoekstra made a motion with support by Blanton to approve the Strategic Support Services Contract as Presented.

Aye votes: Hoekstra, Corbin, Klynstra, Blanton, Hoogland, Sylte, Keeter, King

Nays: None

Motion carried.

21.09.6 Review and Approval of Airport Business Center Custodial Bids

Project Administrator Davio presented the bid results of the FY22-23 Custodial RFP. The term of the custodial services agreement was for five (5) years, with the option for renewal for three (3) years. Based on the results of the bids, and background checks for each contractor, it was determined that VHM Cleaning Services was the lowest responsible bidder.

Keeter made a motion with support by Hoekstra to approve the Airport Business Center Custodial Bids as presented and award the Custodial Agreement to VHM Cleaning services.

21.09.7 City of Holland Study Session Update: Parcel K

Director Thelenwood apprised the Board of a recent study session with Holland City Council focused on updating city officials on the land release process, the significance of the release for Parcel K to the Board, and outline the City's role and responsibilities in the process. Council will be holding a public hearing on October 20th to review the request for the City to declare the parcel as surplus, a critical next step before the FAA Land release agreement can be fully executed, and before the property can be listed as for sale.

21.09.8 North Hangar Park/Development Update

Director Thelenwood updated the Board regarding the process of the North Hangar Park and Taxilane project. Staff were in the process of completing independent fee assessments for both the Preliminary Engineering and Environmental Assessment. Once complete, the Airport's Consultant (Mead & Hunt) would provide contracts for review and execution by the Board.

21.09.9 Financial Reports.

Treasurer McCammon presented a summary of the financial statements to the Board.

Hoekstra made a motion with support by Hoogland to approve the Financial Reports as presented.

Aye votes: Hoekstra, Corbin, Klynstra, Blanton, Hoogland, Sylte, Keeter, King

Nays: None

Motion carried.

21.07.10 Updates from the Board

None presented.

21.07.11 Other Business

21.07.12 Adjourn.

Meeting Adjourned at 12:59 p.m.

REPORT 6

To: West Michigan Airport Authority Board.
From: Aaron Thelenwood, Airport Authority Director.
Subject: **Approval of Agreements for Professional Consultant Services:
Preliminary Engineering & Short Form Environmental Assessment**

As part of the North Hangar Taxilane Project, the Board approved Mead & Hunt as the Consultant & Project Engineer following the consultant procurement process established by MDOT-AERO. As part of this process Mead & Hunt is required to provide their fees for the project to MDOT and the Airport is required to perform an independent fee assessment for key services. To date, Mead & Hunt has provided fee estimates for Preliminary Engineering (PE) and a Short Form Environmental Assessment (EA). As the fees for the PE were under \$50,000, the airport was not required to perform an independent fee assessment. An assessment was required for the EA. To complete an assessment, the Airport is required to reach out to a contractor approved by MDOT. The Airport provides the scope of services to the contractor and the contractor provides an Independent Fee Estimate (IFE) as well as an acceptable range of fees. The Airport Authority contracted with C&S Consulting to provide the IFE. C&S determined the IFE for this project to be about \$156,835 though anything between \$141,145 and \$172,515 would be acceptable.

Mead & Hunts fees are as follows:

EA: **\$167,908.56**

PE: **\$41,760.65**

The FY 22 Budget currently contains \$195,110.00 for this work. The Airport Authority would self-fund this work on the front end and would be reimbursed by the FAA/MDOT-AERO later on. The Airport Authority would need to approve a budget amendment of \$14,559.21 to make up the difference. The budget amendment would come out of working capital.

West Michigan Airport Authority

60 Geurink Boulevard, Holland, MI 49423

P (616) 510-2332

Comprising City of Zeeland, Park Township and City of Holland

Recommendation

It is recommended that the Airport Authority Board (1) Approve the agreements with Mead & Hunt to perform the EA & PE work described in this report and authorize Board Chair Sylte to sign off on the agreements and (2) Authorize a budget amendment of \$14,559.21 to come out of working capital for completion of this work.

The West Michigan Airport Authority will provide the public with state-of-the-art global air access to strengthen the local economy and improve the area's quality of life.

Re: Independent Fee Estimate (IFE)
West Michigan Regional Airport (BIV)
Short-form Environmental Assessment for North Hangar Park Development

File: 405.A02.245

Dear Mr. Thelenwood:

C&S Engineers, Inc. has completed the Independent Fee Estimate (IFE) for the Short-form Environmental Assessment for North Hangar Park Development project at West Michigan Regional Airport. The IFE for this project is \$156,835.

The following work plan summary attachment provides a detailed breakdown of our estimate with the tasks to be performed and the man-hour estimates associated to complete each.

This IFE is based upon the scope of work and project figures attached to e-mails from your office. It is our opinion that reasonable fees for this work are between \$141,145 and \$172,515.

We are pleased to have this opportunity to provide this service for the West Michigan Airport Authority. If you have any questions regarding this IFE, please do not hesitate to call me at (315) 708-7356.

Sincerely,

C&S ENGINEERS, INC.

West Michigan Airport Authority

60 Geurink Boulevard, Holland, MI 49423

P (616) 510-2332

Comprising City of Zeeland, Park Township and City of Holland

November 8, 2021

REPORT 7

To: West Michigan Airport Authority Board.
From: Aaron Thelenwood, Airport Authority Director.
Subject: **Approval of Credit Card Policy**

In January 2021 the Airport Authority approved procurement of an Airport Authority Credit Card. As part of this procurement policy, the Airport Authority has been utilizing the City of Holland's credit card policy, which designates how the credit card is to be used, what restrictions are on it, how use is to be tracked, and who is responsible for securing and managing use of the card. As part of the Airport's ongoing annual financial audit, the auditors have recommended that the Airport Authority adopt it's own individual credit card policy. The attached policy largely reflects the City of Holland's policy with slight edits that better align with the actual structure of the Airport Authority as an organization.

Recommendation

It is recommended that the Airport Authority Board Adopt the Credit Card Policy as presented.

West Michigan Regional Airport
CREDIT CARD POLICY
In Accordance with P.A. 266 of 1995

1. **PURPOSE:** The purpose of this policy is:
 - 1.1 To govern the issuance and use of a Credit Card by the West Michigan Regional Airport (WMRA) through the City of Holland Finance Office.
 - 1.2 To provide a convenient means for authorized WMRA employees to make purchases, while reducing costs associated with processing and paying for those purchases.
2. **AUTHORITY:** The WMRA Board approved the procurement of an Airport credit card at the January 11th, 2021 meeting.
3. **APPLICATION:** This policy applies to all WMRA staff.
4. **RESPONSIBILITY:** The City of Holland Finance Director/Treasurer or their designee shall be responsible for the City of Holland's issuance of the credit card, accounting, monitoring and retrieving and developing and issuing procedures to ensure compliance with the WMRA's Credit Card Policy. The City of Holland Finance Director/Treasurer or their designee shall maintain a list of all employees that hold the Credit card for use, along with the name of the employee who has been issued use of the credit card, the limit(s) established, the date issued, and the date returned.
5. **DEFINITIONS:** Credit Card: A credit card issued to WMRA to acquire goods and services for Airport related business.
6. **POLICY:**
 - 6.1 WMRA credit card may be used only by an authorized employee of the Airport for the purchase of goods or services for the official business of the WMRA, and in accordance with procedures issued by the City of Holland Finance Officer/Treasurer.
 - 6.2 The City of Holland Finance Officer/Treasurer shall determine the types or categories of goods or services for which the Credit Cards may be used to purchase, establish dollar and transaction limitations as necessary, and make any needed revisions.
 - 6.3 Lost or Stolen Cards: An employee who has possession of the Credit Card is responsible for its protection and custody and shall immediately notify the issuing bank/company and the City of Holland Finance Officer/Treasurer or designee if the Credit Card is lost or stolen.

- 6.4 Internal Accounting Controls to Monitor the use of WMRA Credit Card: City of Holland Finance Office shall receive from the employee that uses the credit card, within the timeframe specified in adopted procedures, the original of the vendor's itemized receipt detailing the goods or services purchased, cost, and date of the purchase. These receipts must be submitted with approval of the purchases made.
- 6.4.1 Monthly Statement Review. The Finance Office shall review each Credit Card monthly statement as soon as possible to ensure that the transactions comply with this policy. Any transactions that appear on statements that are not documented with a vendor's itemized receipt shall immediately be investigated by the Finance Office, along with transactions that do not appear to comply with this policy. The Finance Director will sign the credit card statement before forwarding to Account's Payable for payment.
- 6.4.2 Payment of Credit Card Billings. The City of Holland Finance Officer/Treasurer shall be authorized to approve of Credit Card bill in order to avoid incurring finance or late charges and not more than thirty days after the initial statement ending date. The total authorized credit limit of the credit card issued is \$5,000.
- 6.5 Unlawful Use of Credit Card: Any unauthorized use of the Credit Card, noncompliance with the City of Holland's policy and procedures or the State of Michigan's law, Public Act 266 of 1995, will be reported immediately to the Finance Officer/Treasurer and the Airport Board Chair, and could result in the following actions affecting the Cardholder:
- Immediate cancellation of Credit Card privileges;
 - Reimbursement (by direct payroll deduction if necessary) to the Airport for all unauthorized charges, plus interest and penalty, and;
 - Possible disciplinary and/or legal action, up to and including termination of employment.
7. ADMINISTRATIVE PROCEDURES: Any changes and/or adjustments to the Credit Card Policy will be sent to the Airport Board for approval.
8. ADMINISTRATOR/LEGAL COUNSEL REVIEW: The Airport Director has determined that this policy as authorized by the WMRA Board meets the goals and objectives of the Airport in order to carry out the purposes of the policy. The City Attorney has determined that this policy as submitted meets the requirements of Public Act 266 of 1995.

West Michigan Airport Authority

60 Geurink Boulevard, Holland, MI 49423
P (616) 510-2332

Comprising City of Zeeland, Park Township and City of Holland

November 8, 2021

REPORT 8

To: West Michigan Airport Authority Board.
From: Aaron Thelenwood, Airport Authority Director.
Subject: **Proposal to Extend Project Administrator Position through June 30th, 2022**

Project Administrator Amanda Davio has been working with the Airport Authority since May 2021. The Board initially approved the Project Administrator role to extend through November of 2021, with the intent to review any potential future extension in November.

The role of the Project Administrator was designed to provide key experiential learning opportunities and supplemental experiences for a recent graduate or similar professional. The Project Administrator was assigned specific projects but was also provided opportunities to explore interest areas at the Airport. More specifically, Amanda has been responsible for, and has successfully executed the following:

- Development of potential Airport Sustainability Project List
- Development and release of Airport User Survey
- Development of Business & Stakeholder Survey
- Identification of Potential Stakeholders/Partners in "Airport Footprint"
- Re-launch of Airport Social Media Engagement
- Establishment of Airport social media posting calendar

In addition to these projects, Amanda has also built established working relationships with, and is the point of contact for, key organizations such as STEM Flights and Flight Path, while also working to establish partnerships with I-Cademy/Innocademy, and I AM Academy. Amanda has been, and currently is serving as the primary point of contact for the majority of the Airport's community engagement work as well as for potential collaboration opportunities in the sustainability space with partners such as:

- The Outdoor Discovery Center

The West Michigan Airport Authority will provide the public with state-of-the-art global air access to strengthen the local economy and improve the area's quality of life.

West Michigan Airport Authority

60 Geurink Boulevard, Holland, MI 49423
P (616) 510-2332

Comprising City of Zeeland, Park Township and City of Holland

- The City of Holland's Sustainability Manager
- The Holland Board of Public Works
- The Macatawa Area Coordinating Council
- Hope College
- Foresight Management
- Boileau Communications
- The West Michigan Sustainable Business Forum
- And several more.

Amanda, is also the key point of contact for upcoming collaborations with organizations like Operation Good Cheer, South Bend International Airport, Gerald R Ford International Airport, as well as the Westcoast Chamber and Lakeshore Advantage.

In addition to the project work described above, Amanda also provides key administrative support services for projects under the purview of the Authority Director. Amanda has far exceeded the expectations of her role and has provided critical support and has proven herself to be motivated, engaged, self-directed, and responsible. The airport would benefit greatly from her continuation on in this role.

It would be the recommendation of the Director to extend her assignment as Project Administrator to forward the key project work she has initiated and is currently at the helm on; efforts that will further the Airport's broader goals of building engagement and cementing community support. Her work also highlights an opportunity for the Board to look at staffing, generally.

Extending her assignment through June 30th, 2022 would require a budget amendment of \$7,200. Current budget could carry Amanda through early spring. It is proposed that this amendment be taken from the CRSSA funds currently set to be allocated to the Airport Authority (totaling \$57,000).

Recommendation

It is recommended that the Airport Authority Board approve the Proposal to Extend the Project Administrator Position through June 30th, 2022

The West Michigan Airport Authority will provide the public with state-of-the-art global air access to strengthen the local economy and improve the area's quality of life.

West Michigan Airport Authority

60 Geurink Boulevard, Holland, MI 49423
P (616) 510-2332

Comprising City of Zeeland, Park Township and City of Holland

November 8, 2021

REPORT 9

To: West Michigan Airport Authority Board.
From: Amanda Davio, Project Administrator.
Subject: **Review of Airport Sustainability Initiatives**

In response to ongoing efforts from the City of Holland related to the Community Energy Plan, the Strategic Development Team, as well as sustainability priorities being put forth by the FAA, I have been tasked with assembling a punch list of potential priorities and projects the airport could pursue in alignment with these efforts. This preliminary list is designed to provide the Airport Authority and its respective committees with an operational framework and is not intended to be comprehensive or complete; however it was designed with feasibility in mind. The items identified here have been established through communication with key regional partners and were designed to be in alignment with common approaches in our region. Partners engaged in identifying these priorities so far have been:

- The Holland Board of Public Works
- The City of Holland Sustainability Manager
- The Outdoor Discovery Center
- The West Michigan Sustainable Business Forum
- The Hope College Sustainability Coordinator
- The Macatawa Area Coordinating Council

Though the initiatives in the attached list were intentionally identified to be feasible for the Authority, this report and the attached list are designed primarily to serve as a jumping off point. Given the ongoing push for more organizations to begin reviewing their operations through a sustainability lens, the rollout of key priorities at the Federal, State, and Local Levels, and the abundance of local support and expertise in our area, it will become more and more important for the airport to define "sustainability" within the context of its operations. This list is intended to help begin this process.

Recommendation

It is recommended that the Airport Authority Board accept this report and the attached list of priorities as information.

The West Michigan Airport Authority will provide the public with state-of-the-art global air access to strengthen the local economy and improve the area's quality of life.

WMRAA Sustainability Initiatives

Intro

As a significant community asset, the West Michigan Regional Airport has a responsibility to serve the public good as well as meet the needs and expectations of its users (pilots, passengers, businesses) and local communities. The airport's proximity to the lakeshore provides it with the unique opportunity to connect its users with some of Michigan's finest natural areas. Over the last several years, Holland and its surrounding communities have increasingly felt the stress of inland flooding, erosion at the shoreline, rising water levels, and significant impacts on regional infrastructure. In accordance with the city of Holland's 2021-2025 Community Energy Plan Strategic Development Team goals and FAA recommendations, this paper outlines key initiatives to continue to explore in the effort of promoting a healthy and sustainable future for the airport and its surrounding communities.

Background

The FAA aims to institutionalize sustainability through long range airport planning and sustainable actions which:

- Reduce environmental impacts.
- Help maintain high, stable levels of economic growth.
- Help achieve "social progress", a broad set of actions that ensure organizational goals are achieved in a way that's consistent with the needs and values of the local community.

The City of Holland's SDT Community Energy Plan goals:

- Electric Portfolio: Continue to shift Holland electric portfolio with emission levels that align with current climate science and regulatory guidelines, while maintaining excellence in reliability and affordability.
- Energy: Reduce Carbon Emissions in the built environment.
- Transportation: Reduce carbon emissions in the transportation sector.
- Carbon Offsets: Take a leadership role in the creation of a community-based system to provide businesses and residents access to carbon offsets to meet their individual goals and commitments, including the option of local carbon offset projects.

West Michigan Regional Airport Authority Focus Areas

- I. Purchasing policy (Operations)
 - A. The Airport Authority could implement a purchasing policy that recognizes the products and services it purchases have inherent social, human, environmental, and local economic health impacts, and as a result, should encourage the purchase of products that embody commitment to sustainability.

Impacts/Outcomes:

- Improve the environment and quality of life of local citizens

- Reduce the environmental impacts of its operations to promote fiscal responsibility, social equity, and community and environmental stewardship
- Promote use of low impact products and services through local vendors

Possible Action Steps:

- Benchmark current purchasing policy against other airports and governmental organizations who have implemented sustainability focused parameters
- Amend the Airport Authority purchasing policy to emphasize the use of post-consumer recycled materials and responsibly produced products
- Implement the use of goods and services which promote efficient use of energy, water, and materials with minimal impacts on the environment post use
- Review policy with local knowledge partners (Holland Sustainability Manager, ODC) to identify reasonable expectations and feasibility of implementation

II. Waste Diversion (Operations)

- A. The Airport Authority could adopt waste diversion solutions in alignment with the goals of the City of Holland and other regional partners that maximize landfill diversion rates, support broader regional economic activity through recycling and repurposing of materials, and maintain efficient and cost-effective waste management practices. The Airport Authority can accomplish these goals by partnering with the City of Holland through their commercial waste contract while also providing convenient solutions for on field tenants.

Impacts/Outcomes:

- Maximize diversion of landfilled waste and increase rates of material recapture through increased recycling and composting where possible
- Provide waste services to our on-field tenants at a competitive rate
- Support circular economy and the city of Holland's material's management goals in waste reduction and promotion of stable recycling infrastructure
- Support local economy by diverting materials to local recycling and materials management partners like Padnos and smaller operators like 8th Day Farms

Possible Action Steps:

- Complete Waste Characterization Audit for Airport Authority facilities (Airport Business Center)
- Provide partnership opportunities to on-field operators to participate in a waste characterization audit for their facilities
- Explore signing onto the City's commercial contract for waste, recycling, and compost services
- Determine possible economic benefit of providing waste management solutions for tenants on the airfield
- Engage Mead & Hunt staff who are currently well established in this space

III. Land Use

- A. Agricultural land leases: The Airport Authority owns multiple parcels of farmland all of which are situated within the Macatawa watershed. In alignment with the goals of the Macatawa Area Coordinating Council, the Macatawa Watershed Project, and Project Clarity, the Airport Authority could promote best practices in agreements with existing farmers and community partners in managing use of this land

Impacts/Outcomes:

- Reduce the environmental impacts of Airport land used for agriculture via minimized runoff, improved planting practices, and low impact fertilizer solutions
- Promote social and environmental health for communities within the Macatawa watershed and beyond
- Build on existing partnerships with Outdoor Discovery Center, Macatawa Area Coordinating Council, and the City of Holland
- Establish WMRA as a regional leader in this space

Possible Action Steps:

- Review and revise land leases to reflect best land management practices and make efficient use of land and water while reducing social and environmental impacts
- Identify potential new farmers/partners who have experience in this space
- Work with partners at the ODC who have established working relationships with current farmers to identify feasible solutions and next steps

- B. Landscaping Management: -The Airport Authority maintains a substantial amount of lawn area surrounding the Business Center, on the airfield, and around tenant hangars. In accordance with the City of Holland's goal to reduce carbon emissions and prioritize efficient use of energy while still balancing airport aesthetics and FAA regulations, the Airport Authority could explore opportunities for natural landscaping, native plantings, and other "smart" landscaping alternatives. Sustainable practices could include increased use of compost, replacement of certain plantings with drought tolerant variations, in addition to exchanging some manicured lawn for low maintenance, native grasses.

Impacts/Outcomes:

- Potential savings on mowing and maintenance costs
- Reduction in irrigation costs through more efficient use of water
- Minimize stormwater runoff to improve watershed quality and align with City of Holland and MACC green stormwater priorities
- Build on existing partnerships with the Outdoor Discovery Center and other local organizations emphasizing efficiency and environmental health in land use
- Capitalize on potential projects as engagement/education opportunities at the airport

Possible Action Steps:

- Review and revise the current RFP process and goals for landscaping
- Benchmark other airports and alternative landscaping options
- Identify priority areas, feasibility, and economic benefit of alternative landscaping options
- Potential Memorandum of Understanding with ODC for mutual support and promotion of City of Holland SDT goals

IV. Energy – (Operations)

- A. Generation, transmission, and distribution of electricity made up 25% of Greenhouse Gas Emissions divided by Economic Sector in 2019. The Airport Authority could act in accordance with the City of Holland's energy goals by implementing renewable forms of energy in daily operations

Overall Impacts/Outcomes:

- Alignment with the City of Holland's energy efficiency goals to reduce carbon emissions via overall reductions in electricity consumption and natural gas consumption
- Promote cleaner air and a healthier environment for the communities which WMRA serves
- Support local economic development and renewable infrastructure
- Opt into alternative energy solution programs that currently exist with the Holland BPW

Possible Action Steps:

- Feasibility study to determine best steps for renewable energy investment
- Invest in Renewable Energy Credits (RECs) offered by Holland BPW (or alternative source)
- Develop Renewable Energy Infrastructure--Investigate options for implementing solar power infrastructure or other similar solutions

V. Transportation - (TBD)

- A. Electric Vehicle Chargers: As a gateway to the lakeshore and a major transportation hub, the West Michigan Regional Airport should capitalize on transportation opportunities which could offer increased activity to the Airport as well as its surrounding communities. In accordance with the City of Holland's SDT transportation goals and, with access to electric alternatives for gas-powered transport expanding, prioritized efforts should emphasize efficiency where possible and where economic rationale exists

Impacts/Outcomes:

- Contribute to improvements in EV infrastructure for lakeshore communities

- Provide additional amenity for airport users, members of the community, and transient traffic
- Build on existing partnerships with the Outdoor Discovery Center, Holland BPW, the City of Holland, and other local organizations initiating transition into the broader electric transport space

Possible Action Steps:

- Explore BPW and city of Holland incentives for contributions to EV infrastructure
- Determine eligibility for grant opportunities through EGLE/FAA and explore opportunities to build on existing partnerships with local organizations to collaborate on grant opportunities
- Establish Fee for service EV charger available for airport users and transient traffic

~~B.~~ Multimodal Transportation:

~~C-B.~~ The Airport Authority could work toward establishing connections with the broader transit infrastructure of West Michigan by providing its users with access to reliable transit to and from the airport and around neighboring communities (with preference for electric or alternative fuel vehicles)

Impact/Outcomes

- Support WMRA's role as a leader in the community by promoting local and regional connectivity and engagement
- Establish partnerships with local transportation-oriented organizations and continue to establish impact in the transportation sector
- Respond to need for access to community by airport users
- Encourage developmental growth in the region by promoting accessibility to/from the airport

Possible Action Steps:

- Develop RFI to assess transportation related organizations interested in collaborating
- Determine feasibility of establishing WMRA on public transit route
- Connect with local transportation providers to identify collaboration opportunities and solutions
- Benchmark other airports and their solutions for providing transportation options to and from their facilities

VI. Long Term Items/On the Horizon

- A. Green Hangar development
- B. Carbon Calculation
- C. EV/hydrogen powered Aircraft
- D. Alternative AV Fuels
